

How To Get Started with Zelle®

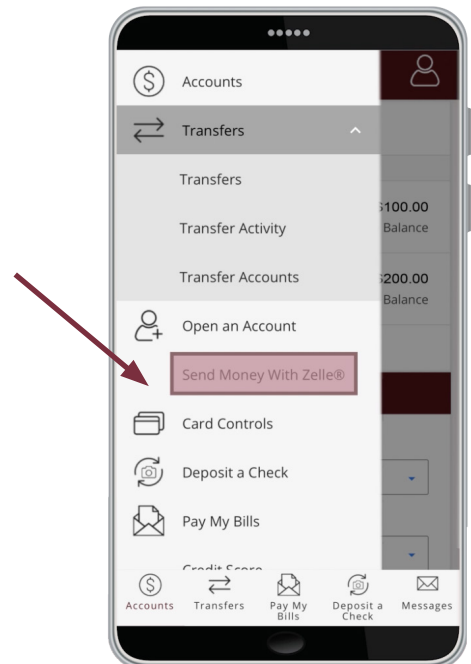

1. Log In to your Cornerstone Bank mobile app

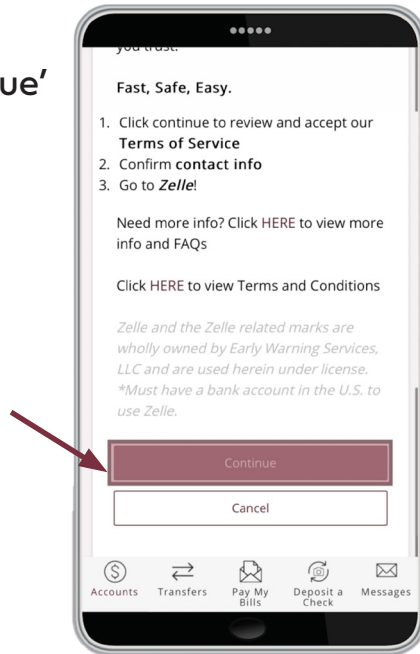

2. In the upper left-hand corner, click the three lines at the top of the screen

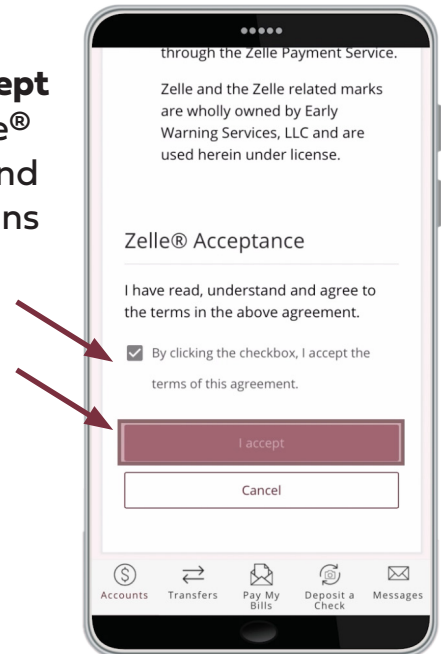

3. Select 'Send Money with Zelle®'

4. Click 'Continue'

5. Review and accept the Zelle® terms and conditions

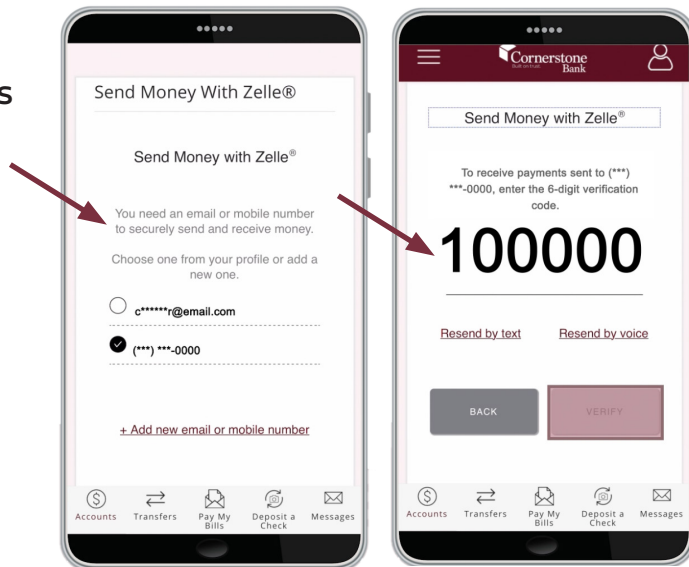

6. Select an email address and mobile number that you would like to use for Zelle®

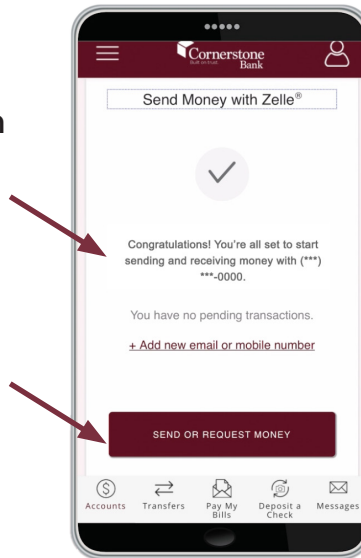

Note, if you have a Zelle® connection through the standalone app or with another bank, you cannot register using the same email address or mobile number. Each Zelle® registration is tied to one email and one mobile phone number.

- 7.** After submitting your email address and mobile phone number, **you will receive a confirmation text with a code that you will need to input into your Cornerstone Mobile App**

- 8.** You're now able to send and receive money on the Mobile App through Zelle®

To transact with someone who is not enrolled in Zelle®, you will need that person's phone number or email to request, send, or split money. That person will then receive an email explaining how to collect their money.

Keep in mind, Zelle® can send money from your bank account to someone else's in minutes. It's important that you know and trust the person you're sending it to. In most circumstances, once you authorize a payment to be sent, you can't cancel it.
